

DID YOU KNOW...

- * You or your company can commission or sponsor a book in the Sibos Series?
- * You can sponsor a brand new Sibos title or one of the existing titles in the series.
- * Branding is printed on the inside front cover.
- * You have a say in the text of the story (if it's a new title) and illustrations (i.e. Any specific information you would like woven into the story line or graphics you would like portrayed).
- * The smallest print run is 3000 - although you can order less and have your branding attached to the front inside cover in sticker format, instead of being printed. (There is no limit to a large print run, and they do not go in batches of 3000 e.g. you can order 4000 or 16250!)
- * 30% discount is given on orders of large quantities. (To give you an idea of prices - in 2016 a single Sibos book sells for R49.99. 3000 books would cost ~R150,000 plus tax however the discounted price would be ~R100,000 plus tax - these prices are subject to change - please contact the publishers.)

- * These 3000 books would then obviously belong to you, to either sell (at the recommended price or less) or give-away as you wish. If you need help in this regard, Ginny does have connections with the Science Centres in South Africa.
- * It should be noted that whilst you or your company may sponsor or commission x amount of copies of a title - please do understand that this title **still remains** part of the Sibos Series. It will also be sold in various retail outlets (without your branding).
- * If you should want a book that **BELONGS** solely to you/your company this would have to be negotiated differently.
- * Whilst we are prepared to write stories on all sorts of different topics please do take note that The Sibos Series has a "green" theme that runs throughout all the books. Our aim is to convey messages in a gentle non-threatening way, empower young children, help to change their mindsets, and give them confidence to go out and make a difference themselves. (Not to scare the pants off them!)

Titles in the series that have been sponsored/commissioned to date:

Sibos in Space - written to celebrate 2009 being International Year of Astronomy - 8000 copies sponsored by SAASTA/Dept of Science & Technology.

Sibos Sizes Things Up - commissioned by SAASTA for their nanotechnology awareness drive in 2010. 8000 copies sponsored.

Sibos Likes Life - written to celebrate 2010 being International Year of Biodiversity. 10,000 copies sponsored by SAASTA.

Sibos Mixes Things Up - written to celebrate International Year of Chemistry 2011. 3000 copies sponsored by BASF - The Chemical Company.

Sibos Saves a Stray - private sponsors 2012 - Michele & John Hattingh (1000 copies)

Sibos Fights Malaria - commissioned by the University of Pretoria Centre for Sustainable Malaria Control and The National Department of Health (8000 copies) - 2014.

Sibos Looks Right - crowdfunded - but sponsored mainly by NASH NISSAN (800 copies) e-book freely available on web site - 2016.

Sibos on the Move - commissioned by Gautrain (10,000 copies) - 2016.

We are also currently looking for a sponsor(s) for the following ideas for Sibos books.

Bullying
Manners
Sports
Communication
Immunology
Housing

If you are interested please contact either Ginny or Lets Look Publishers
squigglez@telkomsa.net
imfundo@netactive.co.za

PLEASE NOTE - this does not prevent anybody else from sponsoring the same titles again.
